**DECLARATION UNDER 37 C.F.R. §1.131**

Assistant Commissioner of Patents  
Washington, D.C. 20231

Dear Sir:

I hereby state and declare that I, Bryan R. Martin, am a joint inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled: Videoconferencing Arrangement Having Multi-Purpose Digital Still Camera, having Application Serial Number 08/941,975 (attorney docket number 8X8S.88US01), and was filed on October 1, 1997.

I, Bryan R. Martin, further state and declare that I have reviewed and understand the contents of the above-identified specification, including the claims, and that:

1. The invention claimed in the above-referenced application was conceived before October 11, 1991, and was successfully built and tested using a prototype printed circuit board, a true and accurate photocopy of the sides of which is being attached hereto with a redaction of the copyright date.

2. From before October 11, 1991, until successful testing and implementation, I was employed by and personally involved with other engineering employees of Integrated Information Technology, Inc. (now "8x8, Inc.") in an ongoing engineering effort to successfully implement a video camera communication arrangement based on a video controller processor circuit, referred to as the "Cameo (Mother) Board"; this video camera communication arrangement was constructed and operating according to the invention claimed in the above-referenced application, Serial No. 08/941,975.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Signed this 29<sup>th</sup> day of MARCH, 2000, by:

  
Bryan R. Martin
